POULTRY SWINE

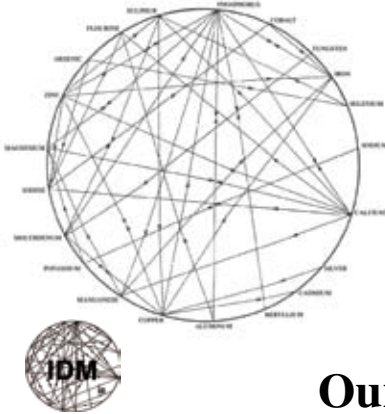

The animal feed products listed in this catalog are **USDA** certified organic and are identified with the **USDA** organic seal. The products with the **NOP's** ingredient statement conform to the **NOP's** national list of materials acceptable for **organic livestock production**.

APPLIED COMMON SENSE™

2009

(Catalog Effective February 2009)

Helfter Feeds, Inc.® has been dedicated for over 43 years to providing producers with nutritional technology to achieve maximum animal health for the production of drug and hormone free meat and milk. Animal health problems are due to nutritional deficiencies and related environmental conditions.

Helfter Feeds, Inc.® now offers a complete line of **USDA/NOP** organic livestock production products.

Our Mission:

To achieve maximum animal health with natural organic nutrients through Applied Common Sense, Technology and Services.

ATTENTION CERTIFIERS:

For protection of the USDA - National Organic Program livestock inputs, the following steps are being taken by **Helfter Feeds, Inc.**® to assure identification of our product line.

1) **Applied Common Sense**™ printed on the white poly woven bag.

2) **Helfter Feeds, Inc.**® color non-reproducible label on the bag.

3) All labels can be identified with the following:

INGREDIENT STATEMENT

This product contains only certified organic agricultural products or ingredients that conform to the NOP's national list of materials acceptable for organic livestock production.

4) A barcode on the bag. If you give us the barcode number, we can tell you what product it is, when it was manufactured, and whom it was sold to.

800-373-5971

Complete Implementation of above program by April 14, 2008

ADVANCED BIOLOGICAL CONCEPTS[®] MISSION STATEMENT

Improve the quality of life for mankind; by improving the quality of life for animals through natural nutrition.

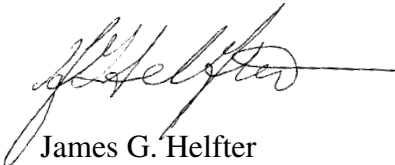

Guideline for Achieving Mission Statement

- 1) Always focus on the **cause** of a disease or problem, not the symptom.
- 2) Refrain from Research and Development involved in symptom relief.
- 3) We believe most poor health problems in animals are due to a nutritional deficiency caused by the confinement of animals, thereby, limiting their access to a variety of nutritional ingredients.
- 4) Often improvement in health can be dramatic when furnishing a balanced diet or adding nutrients that are lacking in the animal's diet. Not unlike giving food to a starving animal, this creates a dramatic improvement in health. This mode of nutritionally assisting animals must not be confused with drug therapy or medicine. We do not prescribe replacing the body's own mode of action through supplementation with synthetic chemicals and artificial components.

We supply the body with what it needs to repair itself.

- 5) We do not prescribe the use of poisons or mega doses of single nutrients to **enhance performance**.

For more information or to place an order, call us at
1-800-373-5971 and we will be happy to serve you.

INGREDIENT STATEMENT

This product contains only certified organic agricultural products or ingredients that conform to the NOP's national list of materials acceptable for organic livestock production.

INGREDIENTS:

Lactobacillus Acidophilus Fermentation Product, Organic Kelp Meal, Organic Linseed Meal, Organic Wheat Middlings, Vegetative Charcoal, Organic Dried Tomato Pomace, Attapulgite Clay, Diatomaceous Earth, Monosodium Phosphate, Magnesium Oxide, Organic Apple Cider Vinegar, Organic Dried Whole Milk, Organic Soybean Oil, Choline Chloride, Organic Aloe Vera Gel Concentrate, Organic Potato Starch, Organic Dehydrated Eggs, Organic Sugar, Yeast Culture, Lecithin, Vitamin B12, Potassium Chloride, Calcium Iodate, Niacin, Thiamine, Sodium Sulfate, Copper Sulfate, Copper Choline Citrate Complex, Ferrous Sulfate, Ferric Choline Citrate Complex, Zinc Sulfate, Zinc Choline Citrate Complex, Manganous Oxide, Manganese Choline Citrate Complex, Ascorbic Acid, Vitamin A Acetate, Vitamin D3, Natural Source of Vitamin E (d-alpha Tocopheryl acetate), Biotin, Riboflavin, Pantothenic Acid, Pyridoxine Hydrochloride, Carotene, Folic Acid, Cobalt Sulfate, Lactobacillus Acidophilus, Lactobacillus Casei, Bifidobacterium Thermophilum, Enterococcus Faecium, Organic Sources of (Cayenne Pepper, Peppermint, Garlic, Parsley, Dandelion Root Extract, Elder Flowers, Dandelion Extract, Ginger Extract, German Chamomile, Lemon Grass Extract, Thyme, Sweet Fennel Extract, Sweet Basil, Sage, Cloves), Natural Tocopherols.

DAIRY COWS:

LACTATING COWS: Top Dress 1/2 Ounce / Head / Day

DRY COWS: Add 2 Pounds Per Ton Of Grain

CALVES: Add 5 Pounds Per Ton Of Complete Feed
 (Can be bolused 1/2 ounce per head)

BEEF CATTLE:

Top Dress 1/4 Ounce / Head / Day

Add 2 Pounds Per Ton Of Grain

RECEIVING: Top Dress 1/2 Ounce Per Head Per Day for 14 Days

POULTRY:

Add 2 Pounds Per Ton Complete Feed

Add 4 Pounds to Starter Rations

SILAGE:

Add 2 Pounds Per Ton of Corn

Silage or Haylage

SWINE:

ADD 3 Pounds Per Ton Of **COMPLETE FINISHING** Rations

ADD 5 Pounds Per Ton Of **COMPLETE GROWER** and **LACTATION** Rations

ADD 7 Pounds Per Ton Of **COMPLETE STARTER** and **GESTATION** Rations

THIS PRODUCT MEETS THE SPECIFICATIONS FOR NATURAL LIVESTOCK PRODUCERS.

Why is D.U.A.™ the world's number one Feed Additive?

D.U.A.™ = Dramatic improvement in fiber digestion.

The **Benefits** of increased **fiber digestion** are: Increased **mineral** and **protein** assimilation.

Benefits of this type of Mineral:

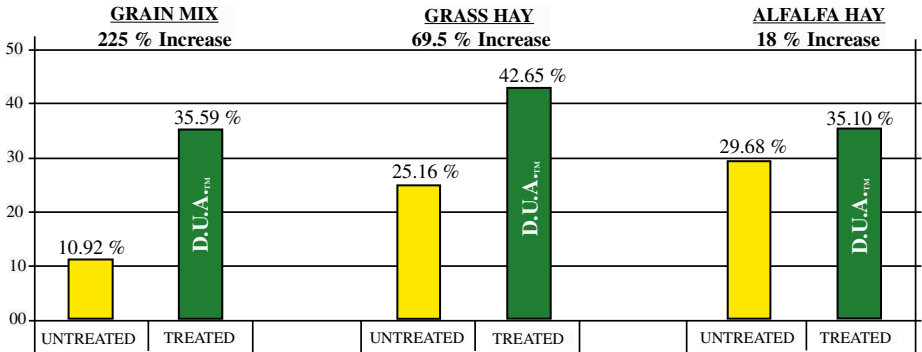

Highly available **single molecule**, **chelated** to carbon (sugar) by the plant.

This is the type of **mineral** that **animals** were **meant to live on**,

NOT ground up rock which is very low in availability.

Neutral Detergent Fiber Digestion

Independent Lab studies of D.U.A.™ effect on digestion of **Neutral Detergent Fiber Digestion** yielded the following results.

This test was performed by using the following protocol:*

GRAIN MIX
 Control grain mix /
 fiber digestion = 10.92 %
 D.U.A.™ added /
 fiber digestion = 35.59 %
 increase = 225 %

GRASS HAY
 Control grass hay /
 fiber digestion = 25.16 %
 D.U.A.™ added /
 fiber digestion = 42.65 %
 increase = 69.5 %

ALFALFA HAY
 Control alfalfa hay /
 fiber digestion = 29.68 %
 D.U.A.™ added /
 fiber digestion = 35.10 %
 increase = 18 %

*These numbers were obtained through Invitro procedures

- **Better FE/RG • Improved Physical Health • Maximum Genetic Potential**

Reduces waste and odor concerns.

Makes your **waste** a **valuable** commodity.

PROFIT WITH D.U.A.TM

DAIRY: Producers in the dairy industry have shown:

Using **D.U.A.TM** at the 1/2 oz/hd/day in your dairy ration increases the utilization of protein in the diet equal to the level of 3.1pounds of **Soybean Meal** (48%).

Removal of Soybean Meal 3.1 pounds @ .0875 pound	= \$.271
Inclusion of D.U.A.TM 1/2 oz/hd/day	= \$.065
Savings	= \$.206

For every \$**1.00** invested in **D.U.A.TM**, you **SAVE \$3.17!**

If 1/2 oz/hd/day saves 3.1 pounds of **Soybean Meal**, then 1 bag of **D.U.A.TM** saves **4,960 pounds** (almost **2.5 ton**) of **Soybean Meal**.

Using **D.U.A.TM** has always displayed a minimum 2:1 return to cost ratio in Livestock Programs.

PROTOCOL FOR

D.U.A.TM

(Digestive Utilization Absorption)

&

FREE CHOICE MINERALS

D.U.A.TM NEEDS TO BE FED AT ALL TIMES WITH **FREE CHOICE MINERALS**

Reasons: **D.U.A.TM** increases digestion of fiber. Fiber contains the major minerals, as well as, minors. It is **poor management** to buy minerals when your feed stuffs (hay, grass and grains) can supply them. **D.U.A.TM** also makes **Free Choice Minerals** more available; this all means **less usage** and **greater profit** for you the **Producer**.

Organic D.U.A.™ Pellets

FPD386-2

Nature to the Rescue!

How Can Aloe Vera Plus Garlic Help You?

Aloe Vera's effect on the immune system starts with the digestive system. If the digestive system is not working properly, then the body's immune system becomes overwhelmed due to waste build up, allowing bacteria and viruses to become more prevalent, causing inflammation to set in, joints to become affected, and the circulatory system to be compromised.

Feeding **Aloe Vera** may help prevent some of the problems associated with these kinds of issues; in turn, **helping the body heal itself.**

Garlic is traditionally used for worm and other parasites and has the ability to deter biting flies. Rich in sulfur, once ingested, **garlic will cleanse the blood** and then be excreted through the pores of the skin where sulfur compounds are mildly noxious to parasites. **Garlic** is also ideal for respiratory disorders due to its expectorant qualities and is one of the best herbs to prevent and fight infections.

Benefits of **Aloe Vera**

- Helps treat ulcer disease - **normalizing acid levels in the stomach.**
- Forms a lining throughout the colon to keep toxic waste from entering the body.
- **Strengthens the immune system** - Forms a barrier against microbial invasion (viruses).
- Facilitates the absorption of water, electrolytes and nutrition in the digestive system.
- Provides the raw material critical for **lubrication of the joints.**
- Also has **natural healing and detoxifying powers** and works gently with the digestive tract to help break down impacted food.
- Helps sore and stressed muscles recover faster in working horses.

Benefits of **Garlic**

- **Insect repelling qualities.**
- Natural MSM.
- Natural antioxidant.
- **Antibacterial**, helps fight infection.
- Antiviral, antifungal and anti-parasitic.
- **Helps build a healthy immune system.**
- Inhibits the growth of cancer cells.
- Aids in **circulation and digestion** by relieving inflammation of intestines.

Benefits of **Cumin**

- Cumin **aids in diarrhea, gas colic and bloat.**
- **Stimulates appetite.**
